

# Daniel Amekpoagbe Yawson

Front-End Developer

+233 245 870 688 | amekpoagbedaniel03@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

---

## Education

---

**Accra Institute of Technology**

Computer science

Accra, Ghana

January, 2023 – Present

## Experience

---

**Frontend Developer Intern**

October, 2024 – December 2024

*Ideation Axis*

*Remote*

- Built responsive and dynamic web applications using React.js, Tailwind CSS, and Framer Motion.
- Translated UI/UX designs into functional web pages with optimized performance.
- Collaborated with backend developers to integrate APIs and enhance user interactions.
- Worked on a real-world agriculture-based project (CropCircle), where I specifically implemented the login and logout functionality with validation and handled the OTP verification process to enhance security and user authentication.

**Developer Relations Assistant**

March 2025 – Present

*Trestle Academy Ghana*

*Remote*

- Advocating for front-end technologies and best practices within developer communities.
- Creating technical content, including blog posts, tutorials, and demo projects on React.js, Tailwind CSS, and modern UI frameworks.
- Assisting developers in troubleshooting front-end issues and optimizing web performance.
- Organizing and participating in online workshops, webinars, and community discussions.
- Collaborating with internal teams to enhance documentation and improve the developer experience.
- Engaging with open-source projects and contributing to community-driven front-end solutions.

## Projects

---

### Domus

| A Personal Application Built with *React.js, Supabase, Framer-Motion*

February 2024

- Developed a real estate marketplace using React.js, Tailwind CSS and Supabase, ensuring a modern and intuitive UI.
- Implemented property listings with search and filtering functionality for a seamless user experience.
- Designed the platform with scalability in mind, allowing future integration of payment gateways and advanced filtering.
- Focused on performance optimization and smooth navigation across different devices. Technical Skills

## TechTrend

[In Development]

*Present*

- Developing a full-featured e-commerce platform for Apple & Samsung accessories.
- Implemented user authentication and product listing.
- Building a cart, checkout, and local payment integration.
- Planning to add order tracking, reviews, and discounts.

---

**Front-End:** JavaScript, HTML, CSS, Tailwind CSS React.js, Bootstrap CSS,

**Backend:** Supabase, Firebase

**Developer Tools:** Git, GitHub, VS Code
